

Connection Diagram Fax Server ISDN 2

There are three ways to use a Fax Server ISDN Basic Rate:

- Stand alone on one or more lines that are used for the Fax Server only.
- Together with other equipment such as the PBX
- Together with other equipment such as the PBX and Fax Recording

Always use the supplied T-splitters to connect to the ISDN S0 line. The figure is an example of a possible setup of the Fax Server ISDN Basic Rate.
